Professional Liability Protection

Also known as Errors and Omissions insurance, Professional Liability insurance is an essential part of your business insurance protection. Canadians and the court system are holding professionals to increasingly higher standards of care. Just the costs of defending a lawsuit can be financially devastating for any size firm, no matter how big or small yours is. Protect your firm with policy coverage tailored to meet the unique needs of interior designers.

Design Firms General Liability and Office Insurance

The office insurance program we have established for design firms provides affordable, comprehensive insurance. Office contents coverage can be provided on an all-risk, replacement cost basis to give you peace of mind protection. CGL limits of up to \$5M are available. Take advantage of our convenient monthly payment plan. And, when you need it most, experience our 2-hour claims service.
